PROJECTS

NIK ARCHIVES

Technologies: Next JS, Sanity.io, TypeScript, ShadCn, Tailwind CSS

A personal blog where I share thoughts, stories, and discoveries from everyday life—covering everything from creativity and learning to the little moments that matter.

Site: https://nik-archives.dev

SOLEMATES

Techonologies: React, Tailwind, Typescript, ShadCn UI

SoleMates is a web app that helps users explore and compare running shoes, offering key details and specs to find the right fit. Built with Vite and React, it's fast, responsive, and easy to use.

Site: https://solematesv1.vercel.app/

SIROTER-LE-DELICIEUX-CAFE

Technologies: React JS, Tailwind Css, Redux

A frontend design of a coffee shop website that allows users to determine its information as well as look into its different services and products that the shop offers.

Site: https://siroter-le-delicieux-cafe.vercel.app/

NETFLIX-CLONE

Technologies: React JS, Tailwind Css, Firebase

A netflix clone web application where users can create an account, log in using their created account and saved movies/shows. Created account and saved movie/show is stored in Firebase

Site: https://netflix-clone-chi-neon.vercel.app/

PEDAL DECK

Technologies: React JS, Tailwind Css, Redux

A frontend design of an e-commerce website that allows user to browse a bicycle and check its information. It also allows them to add on their cart and proceed to checking out.

Site: https://pedal-deck.web.app

HEALTH MAINTENANCE INC | PORTAL AND WEBSITE

Techonologies: Vue JS, Scss, Node Js and MySQL

Portal: A Progressive Web App that allows users to view utilities/transaction history from their previous activity. Users can also view their profile as well as their dependencies.

Website: A company website that helps users know what the company is all about, who are the management team and its services. Also, the website allows users to search their affiliated facilities and physicians.
